

11th INTERNATIONAL CONFERENCE ON THALASSAEMIA & HAEMOGLOBINOPATHIES
AND
13TH INTERNATIONAL CONFERENCE FOR THALASSAEMIA PATIENTS & PARENTS

S I N G A P O R E
6-10 OCTOBER 2008

The Board of Directors of the Thalassaemia International Federation are pleased to announce that the above International Conferences will be held in Singapore between 6-10 October 2008.

[Singapore](#) and the [Suntec Singapore International Convention and Exhibition Centre](#) clearly have considerable experience in hosting major international events and their world class conference facilities and hotels, is the designated venue for the joint 2008 Thalassaemia Conferences.

The broader Asian region is a highly affected part of the world with considerable needs for improvement in both prevention and clinical management of thalassaemia and other Haemoglobinopathies. Holding the joint 2008 Conferences in the heart of the region could therefore go some way towards instigating change.

[FURTHER INFORMATION ABOUT THE CONFERENCES WILL BE AVAILABLE SOON!](#)
